

UV Air & Surface Disinfection Models

SANITAIRE[®]

ULTRAVIOLET ROOM AIR SANITIZERS

Applications: food processing, pharmaceutical, dairy plants, bakeries, methadone clinics, clean rooms, homeless shelters, prisons and jails, etc.

SANITAIRE[®] UV Room Air Sanitizer

- Sanitizers are constructed of tough, corrosion-resistant 304 stainless steel
- Blower capacity 72–2680 CFM, Max treatment 3240–120,000 CFH
- Destroys harmful bacteria, mold and virus in the air
- For occupied areas, in many configurations to adapt to any setting
- Models may be mounted into drop ceiling, on a wall or for portable use
- Washable Electrostatic, Absolute HEPA or disposable particulate filters

Hygeaire[®]

ULTRAVIOLET INDIRECT AIR DISINFECTION

Applications: hospitals, laboratories, clean rooms, operating rooms, ICU's, burn centers, doctors office, homeless shelters, methadone clinics, dairy plants, etc.

Hygeaire[®] UV Indirect Air Disinfection Models

- Fixtures are constructed of tough, corrosion-resistant 304 stainless steel
- Destroys harmful bacteria, mold and virus in the air carried into the UV field
- Uses baffles to direct rays to the upper portions of a room
- For use in occupied areas. Upper room portion must be unoccupied; proper precautions must be taken

AeroLogic[®]

ULTRAVIOLET AIR DUCT DISINFECTION SYSTEMS

Applications: residential or commercial uses, homes, hospitals, labs, new or existing forced air ducts etc.

AeroLogic[®] UV Air Duct Disinfection Models

- Fixtures are constructed of tough, corrosion-resistant 304 stainless steel
- Destroys airborne microbes including bacteria and virus in forced air duct systems
- Models can be installed in new or existing duct systems
- Models can be sized to provide up to a 98% bacteria kill rate

Sanidyne[®]

ULTRAVIOLET PORTABLE AREA SANITIZERS

Applications: hospitals, labs, clean rooms, operating rooms, ICU's, burn centers, homeless shelters, methadone clinics, TB clinics, detention centers, kennels, dairy plants, etc.

Sanidyne[®] UV Portable Air and Surface Sanitizers

- Sanitizers are constructed of tough, corrosion-resistant 304 stainless steel
- Disinfects air and surfaces in unoccupied areas by means of germicidal irradiation
- Generates high levels of ultraviolet radiation lethal to bacteria, mold, virus and fungi
- Portable, compact and light weight, easily carried from one location to another
- A room as large as 1,000 sq. ft. can be treated in one hour

Nutripure[®]

ULTRAVIOLET SANITARY CONDITIONERS

Applications: bottlers, beverage manufacturers, breweries, food and flavor processing, dairy, wineries, distilleries, etc.

Nutripure[®] UV Liquid Storage Tank Sanitary Conditioners

- Models are constructed of tough, corrosion-resistant 304 stainless steel
- Controls condensation & provides filtered, sanitized air to liquid sweetener and edible oil tanks
- Destroys harmful bacteria, mold and virus in the top of liquid storage tanks
- Washable Electrostatic, Absolute HEPA or disposable particulate filters available
- Absolute HEPA Filters provide removal of particulates and microorganisms (99.97%)

SaniLIGHT®

GERMICIDAL ULTRAVIOLET IRRADIATORS

Applications: labs, clean rooms, operating rooms, etc.

SaniLIGHT® UV Air and Surface Irradiating Fixtures

- Fixtures are constructed of tough, corrosion-resistant 304 stainless steel
- Irradiates room air and exposed surfaces with direct germicidal ultraviolet rays
- Very effective due to the long, unobstructed path of the rays
- For ceiling or wall mount in unoccupied areas, or when proper precautions are taken

Sani-Ray®

GERMICIDAL ULTRAVIOLET RECESSED FIXTURES

Applications: labs, clean rooms, operating rooms, conveyor belt disinfection, etc.

Sani-Ray® UV Recessed Air and Surface Irradiating Fixtures

- Fixtures are constructed of tough, corrosion-resistant 304 stainless steel
- Irradiates air and exposed surfaces with direct germicidal ultraviolet rays
- For ceiling or wall mount, with handles for portable use
- For use in unoccupied room, or when proper precautions are taken
- Very effective due to the long, unobstructed path of the rays

Biolux®

GERMICIDAL UV FIXTURES

Applications: labs, clean rooms, operating rooms, etc.

Biolux® UV Air and Surface Irradiating Fixtures

- Some fixtures are constructed of stainless steel
- Strip fixtures are constructed of polished chrome
- Irradiates small areas and exposed surfaces with direct germicidal ultraviolet rays
- Various configurations are available

Monozone™

ULTRAVIOLET AIR OZONE GENERATORS

Applications: water damage, fire/smoke remediation, odor removal, and mold removal

Monozone™ UV Air Ozone Generators

- Models are constructed of tough, corrosion-resistant 304 stainless steel
- Uses **STER-L-RAY®** Germicidal Ozone-Producing UV Lamps to destroy airborne bacteria, mold, and virus in unoccupied areas
- **Promate™** standard wall mounting kit enables the model to be mounted to a wall in either a vertical or horizontal position
- **Promate™** Observation Port allows for visual lamp inspection
